EDUCATION

MIT Manipal

Sep 2024 – Aug 2028

B.Tech, Computer & Communication Engineering

Manipal, Karnataka

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Deep Learning, Artificial Intelligence, Database Management Systems, Operating Systems, Computer Networks

EXPERIENCE

AI/ML Intern

May 2026 – Present

CRID India (Climate Tech)

Remote / Hybrid

- **AI Auditor for BEE:** Built an end-to-end system automating Detailed Project Report (DPR) financial calculations, Type A/B/C data extraction, and LLM-assisted report population; delivered a Dockerised full-stack application (frontend, backend, Supabase) with a successful product demo.
- **Feynman (Indian Energy-Policy LLM):** Researched fine-tuning architectures, GPU cost and memory requirements, and compared 1.5B–10B models. Engineered the data pipeline: multi-engine extraction (OCR, Docling), cleaning, MinHash-LSH deduplication, quality filtering, and Qwen-token chunking, with JSONL/Parquet output.
- **Outlook & Calendar Automation:** Built a multi-user email and meeting dashboard (Next.js, FastAPI, MSAL, n8n) with scheduled Microsoft Graph ingestion and an approval-gated LangGraph mail assistant.
- **Document Parser Benchmark:** Designed a gold-standard benchmark (text, structure, table, chart) to evaluate PDF parsers; Docling scored 0.909 versus 0.741 for MinerU and 0.738 for PyMuPDF.

PROJECTS

AI Life Sage (Personal Self-Development Platform) | React, Node.js, Express, PostgreSQL, Gemini, JWT

- Built a full-stack self-development platform (habit tracking, finance management, journaling, hobbies, AI-powered insights) with secure authentication, REST APIs, a PostgreSQL schema, and audit logging.
- Designed a modular backend with RESTful API routing, deployed to the cloud.

Honeypot Anti-Scam Agent | Python, FastAPI, Gemini, Agentic AI – India AI Summit, GUVI/HCL

- Developed an autonomous AI honeypot that engages scam callers through persona generation and intent-aware conversations, combining LLM reasoning with NLP-based classification to achieve ~96% scam-detection accuracy.
- Selected among projects showcased at the India AI Summit, with 3,500+ attendees.

GitHub Repository Health Analyzer | Python, GitHub API, Groq, Agentic AI

- Built an AI-powered repository analysis platform assessing quality, maintainability, documentation, and security, with automated scoring and LLM-generated natural-language reports that cut manual assessment effort by ~40%.

PM2.5 Air Quality Prediction using Explainable AI | Python, XGBoost, SHAP, Scikit-learn – Published, BHTC Conference

- Built an explainable machine-learning pipeline for PM2.5 prediction; feature selection and model optimization achieved $R^2 = 98.34$, with SHAP identifying the dominant environmental contributors.
- Published at BHTC (“ML Framework for Assessing Atmospheric & Environmental Factors Affecting Air Quality”); journal paper in progress: “Air Quality Monitoring & Cybersecurity using Machine Learning and AES Encryption.”

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Artificial Intelligence: Machine Learning, Deep Learning, NLP, Retrieval-Augmented Generation (RAG), Agentic AI, LLM Fine-Tuning (QLoRA/LoRA/DAPT), Prompt Engineering, Explainable AI (SHAP)

Frameworks & Libraries: PyTorch, Hugging Face Transformers, Scikit-learn, FastAPI, Flask, Express.js, React, Next.js, LangGraph

Data & Infrastructure: PostgreSQL, MySQL, Supabase, Git, GitHub, Docker, n8n, Jenkins, Google Cloud Platform

AI Tooling: Hybrid Retrieval (BGE-M3 + BM25), OCR Pipelines, Document Parsing, Vector Search, Semantic Chunking, REST APIs

Certifications: Machine Learning Specialization, Deep Learning Specialization (DeepLearning.AI)

LEADERSHIP & ACTIVITIES

RUGVED – Management Head

MIT Manipal

- Lead the management team of a 40+ member interdisciplinary defense-robotics team, overseeing finance, external relations, and sponsorships.
- Secured 20+ industry sponsors through structured outreach and partnership management.
- Designed and developed the official Rugved website and created social media graphics for the team’s online presence.

Professional Communities: Apple Developer Group (MIT Manipal) · Manipal Information Security Team (MIST) · Consulting Club (MIT Manipal)
